Q1 Currently, any budgetary excess the Association has at the end of a fiscal year, the excess monies must be reimbursed back to all homeowner accounts. The Executive Board is proposing to change that language to read that "any excess budgetary monies at the end of a fiscal year will be sent to the Association's capital reserve account to fund future community needs." The reason the Executive Board wishes to make this change is to try and prevent the Association from having to issue special assessments during years when the Association is over budget. It will also keep the Association from having to reimburse homeowner accounts pennies or even dollars when the budgetary excess is minimal.
